

Uncover NEW Options

Now your options for casement hardware are better than ever. Introducing the new Ultra Eclipse™ Operator with a patent-pending slim-line housing using a revolutionary new removable cover that flips open and shut.

The crank handle easily folds into the inner housing of the operator; concealing the handle. The Ultra Eclipse™ Operator meets all AAMA 901 and AAMA 907 standards and retrofits seamlessly with Ultra's Grande Series housing system, and possesses the same unique no-leak housing and four-sided seal just like all of Ultra Hardware's operators.

The new removable covers also come in a variety of finishes including polished brass and satin nickel for great looks and superior sight lines.

Call 1-800-426-6379 or email Eclipse@UltraHardware.com for your free sample!
